

mount anchor plate

- Pull wires through hole.
- Level plate using provided lines.
- Screw plate over junction box or onto wall.

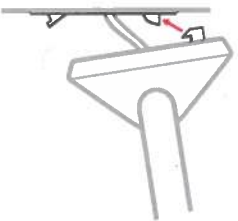

connect wires

- Attach ground/earth wire to the green screw.
- Connect fixture wires — neutral to white, live to black.

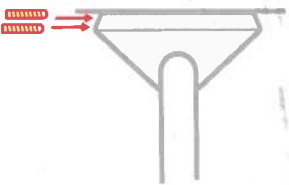

attach mirror

- Hook onto anchor plate.

- Use included allen wrench to secure set screws at base.

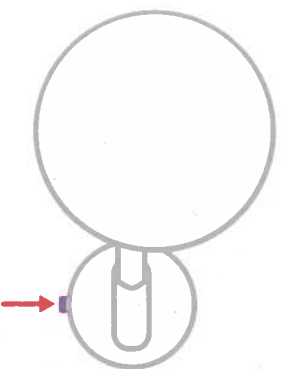

turn on

- Press on/off power button located on base.

Note: For maximum efficiency, always leave mirror in "on" mode.

- Light automatically turns on as you approach.

Note: Keep sensor window clean.
