30 December, 2015**

**Astorg, Willis Group Holdings and Gras Savoye announce final closing of
the acquisition of Gras Savoye by Willis Group Holdings**

Paris, France - Astorg, Willis Group Holdings and Gras Savoye announced today the completion of the acquisition of Gras Savoye, the leading French insurance broker, by Willis Group Holdings plc.

On April 22, 2015, Willis Group announced a firm offer to acquire the remaining 70 per cent of Gras Savoye that it did not own. The transaction completed on December 29, 2015, following acceptance of the offer by Gras Savoye shareholders in late June, consultation with workers' councils, and the receipt of regulatory approvals.

Willis and Gras Savoye will work together to bring the best of their organisations to clients, enabling them to innovate and implement the right solutions to manage risk and people.

The union creates a powerful international network by combining Willis's global footprint with Gras Savoye's particularly strong presence in France, Central and Eastern Europe, and across Africa. Gras Savoye's expertise in high-growth markets and industry sectors complements Willis's strengths, creating significant value for clients and a compelling offer for carriers.

Gras Savoye will keep its name and brand. The union with Willis is built on a successful relationship of 40 years that will help ensure a smooth integration.

The merger of equals between Willis and Towers Watson announced on June 30, 2015, is expected to be completed in early 2016. Gras Savoye will be a vital part of Willis Towers Watson, a global business of more than 39,000 people in more than 120 countries.

Gras Savoye will bring unique strengths to the new company:

- A prominent footprint in France, where Gras Savoye is the largest insurance broker and enjoys a leading position in the mid-market sector.
- Access to high-growth markets across Central and Eastern Europe, the Middle East, and over 30 countries in Africa through a comprehensive network.
- The expertise and reach to serve multinationals, especially in France, which is home to 31 of the Fortune Global 500 - a number that ranks it fourth globally and first in Europe.
- Specialist depth in many sectors, including Construction, Natural Resources & Transport, Human Capital & Benefits, and Technology, Media & Telecommunications.

Xavier Moreno, Chairman and Managing Partner of Astorg, commented: *"We are delighted that Gras Savoye is entering this new, exciting phase of its development strategy following our six-year shareholding period in which Gras Savoye has grown stronger and widened its international network as a result of the tripartite, active and experienced support given to it by Astorg, the management and Willis."*

François Varagne, CEO of Gras Savoye, added: *"This is excellent news for Gras Savoye's 3,900 colleagues. With Willis, we will offer greater opportunities across an increased range of client industries, specialties and countries. We will have market-leading positions in more geographies, deliver unmatched expertise on analytics, and grow our footprint in new markets. I want to thank Astorg and Willis for their strong support to Gras Savoye and my team, which has made this possible."*

Dominic Casserley, CEO of Willis Group, said: *"This is the next step in a long and successful partnership, and we are delighted to be joining forces with Gras Savoye. Our specialist teams and international footprints are highly complementary, with each strengthening the other. Gras Savoye will also play a crucial role in the new Willis Towers Watson, which is set to launch in early 2016, pending completion of the merger. Together we will unite under a single vision to become the advisory, broking and solutions firm of choice."*

Notes to Editors

The History of the Relationship between Willis, Gras Savoye and Astorg

Willis was a key member of a pioneering international network started by a US-based broker in the 1960s, which was named the UNISON network in 1982. Gras Savoye joined this network in 1975, but had worked with Willis on projects prior to that. Gras Savoye has been an associate company of Willis since 1997, when Willis acquired a 33 per cent ownership interest, which it gradually increased to 49 per cent. In November 2009, the capital of Gras Savoye was reorganised and Astorg became a shareholder. Willis, the family shareholders of Gras Savoye and Astorg each held 31.8 per cent stakes in the holding company. The 4.5 per cent stake was held by a group of Gras Savoye managers and employees. As part of this reorganisation and a subsequent agreement, Willis obtained the option to purchase by 2016 the remaining shares it does not own. Since the reorganisation in 2009, the shareholders have jointly supported the management in its efforts to improve company performance.

About Gras Savoye

Gras Savoye, founded in 1907, is the leading insurance broker in France. For more than 100 years, the Group has been growing by placing the client first. Gras Savoye is a solid partner for French companies with a comprehensive regional and international network. Gras Savoye, as an insurer of thousands of companies of all sizes, is involved in national and international projects in many different business sectors: personal insurance, property insurance, civil liability, construction, automotive and many other specialist areas. Every day, Gras Savoye insures 500,000 vehicles and provides healthcare protection for more than 2.2 million people worldwide. The Group employs 3,900 people and has a presence in almost 50 countries. www.grassavoye.com.

About Astorg

Astorg is an independent private equity fund management company, specializing in European mid-market buyouts, with total funds under management of over €4 billion. Astorg seeks to partner with successful and entrepreneurial management teams, to acquire businesses - very often family-owned - with attractive growth prospects, which Astorg supports through the provision of experienced governance and adequate capital. Astorg enjoys a distinct entrepreneurial culture, a long-term shareholder perspective, and a lean decision-making body enhancing its reactivity. Although a multi-sector investor, Astorg has developed solid industry expertise in healthcare, business-to-business professional services and niche industrial companies selling differentiated, often technology-driven, products. Astorg is headquartered in Paris and has offices in London and in Luxembourg, plus Senior Advisors based in Holland, Switzerland and Germany. Visit www.astorg.com
