

# RI TRANSPARENCY REPORT 2020

## Astorg

An investor initiative in partnership with UNEP Finance Initiative and UN Global Compact

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the <u>PRI website</u>, ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the reporting period specified above. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information.

### **PRI disclaimer**

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

## Usage restrictions

Public Transparency Reports are the intellectual property of PRI. Under no circumstances, can this report or any of its contents be sold to third parties.

Astorg joined in 2018 the Initiative Climat International- a declaration adopted by Private Equity actors to commit to monitor their carbon footprint. Through this initiative, Astorg's ESG Director attend bi-annual meetings of Initiative Climat International and participate to 4 workshops.

Astorg had an active role in 2019 by:

- Promoting the initiative at conferences and ESG initiatives
- Participating to 4 workshops along with other Private Equity signatories
- Measuring the carbon footprint for its entire portfolio in October 2019. As a result of the carbon footprinting exercise, Astorg is agreeing with each portfolio companies on climate action plans to reduce their emissions

#### 14.5 Addi

In 2019, Astorg conducted an in-depth analysis of carbon footprint for both Astorg organization and portfolio companies.

In its 2019 ESG report, Astorg disclosed information on portfolio companies' risks and opportunities towards climate change.

In addition, Astorg plans to draft and implement a new climate strategy, based on TCFD recommendations, as of 2nd semester of 2020.

Astorg is also a signatory of the Initiative Climat International, which aims to manage and reduce the greenhouse gas emissions of French private equity firms' portfolio companies.

30	14	CC		

G 14.6 CC	Provid	e further details on the key metric(s) used to assess climate	-related risks a	nd opportunities.
Metric Type	Coverage	Purpose	Metric Unit	Metric Methodology
Carbon footprint (scope 1 and 2)	All assets	Astorg conducted an in-depth analysis of carbon footprint (scope 1 and 2) for both Astorg organization and portfolio companies in order to identify reduction opportunities.	tCO2e	The environmental consultancy commissioned to perform Astorg's carbon footprint assessment used the GHG protocol to assess scope 1 and 2 emissions. The Organizational scope included companies included of the Astorg VI fund, IQ-EQ (Astorg V) and Astorg itself (London, Luxembourg and Paris offices).
Portfolio carbon footprint	All assets	The carbon footprint of the portfolio, normalised by its market value, is one of KPIs that can allow Astorg to follow its progress in time, as well as compare it to various benchmarks (e.g. industry peers).	tCO2e/M €	GHG emissions associated to each company's activities were normalised to the amount invested by Astorg.
Total carbon emissions	All assets	The absolute greenhouse gas emissions associated with Astorg's portfolio have been assessed in order to identify companies that are most likely to face climate transition risks, need to implement reduction initiatives as a priority and require the closest follow-up in this area.	tCO2e	The environmental consultancy commissioned to perform Astorg's carbon footprint assessment used the GHG protocol to assess scope 1 and 2 emissions. The Organizational scope included companies included of the Astorg VI fund and IQ- EQ.

PE 05 Mandatory PRI 1
PE 05.1 During due-diligence indicate if your organisation typically incorporates ESG issues when selecting private equity investments.
✓ Yes
PE 05.2 Describe your organisation's approach to incorporating ESG issues in private equity investment selection.
The process of including ESG factors into our investment decisions is covered by a specific internal policy which also covers risk management. Th process starts with identifying material ESG risks. This step includes:
Studying the sector where the company operates:
- Researching ESG risks and opportunities using sector guidelines (for example the CDC toolkit or SASB);
- Reviewing regulatory trends and international standards related to ESG in the sector;
- Studying ESG initiatives and programmes of big players in the sector and competition.
Discussing the results of the materiality exercise with the deal team involved in the process
• Discussing with the company's management in order to understand their business, operations, products and their environmental, social ar
economic impacts.
Once this is done, the ESG director produces an ESG note which will be sent to the investment committee together with the investment memo to continue researching on the investment target before the decision is taken. The ESG note will contain ESG-related red flags and also
recommendations about the topics that should be covered by the legal, IT, and ESG due diligences.
Should the ESG Director make the recommendation to conduct a specific due diligence before deal signing (for example an environmental due diligence or cyber due diligence), then the deal team will carry out this process before signing the deal with the support of external consultants.
All ESG due diligence is concluded before deal closing and will focus on:
<ul> <li>Assessment of sector-specific ESG risks and opportunities of the targeted company</li> </ul>
<ul> <li>In-depth survey of the company's level of maturity and progress on ESG matters through analysis of existing policies, plans, management</li> </ul>
systems, initiatives and objectives  Ensuring that the company has adequate and competent staffing, management plans and resources to effectively manage and implement
environmental and social mitigation measures
<ul> <li>Identification of the ESG themes that should be addressed in priority and areas of improvement</li> <li>Recommendations to serve as a basis for an ESG action plan and KPIs.</li> </ul>
O No

We do not track this information
PE 06.2 Describe how this information is reported to, considered and documented by the Investment Committee or similar.
Astorg has a procedure for reporting information to the investment committee related to responsible investment and risk management. According to the
procedure, the ESG Director will produce an ESG note which reports risks and opportunities of the investment target and will also discuss with the deal
teams the topics that need to be covered by the legal, IT and ESG due diligences.
The ESG note is provided to the investment committee together with the investment memo for every targeted company for which the deal team is asking submit a binding offer.
All ESG notes and investment memos are saved and archived into Astorg's internal tool to manage all documentation for the investment committee.

The sources behind the ESG note can include:

- Public tools provided by the UN PRI, SASB or CDC on specific sectors, industries or ESG topics
  External consultants specialised on ESG who will provide a benchmark with competition or similar sectors

	PE 07.2 Describe the nature of these improvements and provide examples (if any) from the reporting year
	Before deal closing, the recommendations and priority measures set out during the ESG review are discussed with management and an ESG action plan is set up with clear deliverables and time frames at Board level. The ESG action plan takes the form of an ESG roadmap which lists the ESG achievements of the company at the time of the review and sets the ESG ambition with specific KPIs. The ESG action plan incorporates clear objectives, KPIs, and a timeline, and is annually reviewed by the board.
	Moreover, before the investment closing, the Astorg deal team includes a reference to compliance with Astorg's ESG policy and programme in the Shareholder Agreement with the newly invested company.
	<ul> <li>Examples:</li> <li>The ESG Action Plan and KPIs agreed for a medical devices company acquired in 2019 are the result of the ESG review and the Environmenta</li> </ul>

PE 08.	2 Indicate how ESG issues impacted your private equity investment deals during the reporting year.
	ESG issues impacted the investment in terms of price offered and/or paid
_	ESG issues were included in the post-investment action plan/100-day plan
	ESG issues impacted the terms in the shareholder/purchase agreements and/or lending covenants
_	ESG issues were considered but did not have an impact on the deal structuring process Other, specify
_	We do not track this potential impact
PE 08.	3 Additional information. [OPTIONAL]
nor tar	erall, the ESG process has helped the deal teams in focusing on the right material aspects for their targeted investments and in avoiding risks (such as ncompliance with regulation). Also, there have been cases where ESG aspects heavily impacted the decision of the investment committee to agree on a geted investment. The ESG process has led overall to the adoption of action plans, updates of shareholder agreements and, for specific companies, to the ange of price paid.
