LITTER BINS

Europa 130 L

EUROPA RANGE

GENERAL FEATURES

- CONTENUR's Europa Series litter bins have been designed with a smooth surface to facilitate cleaning. Upon request, they may be supplied in a wide range of colours. Manufactured through rotomoulding with linear polyethylene or using a high-density polyethylene injection system.
- All Europa litter bins have a triangular lock and key for easy and simple handling.
- The 50 L Europa litter bin includes a fixing system made of highly-resistant technical plastic, whilst the 130 L Europa litter bin has a support base integrated into the body and fixed to the pavement with six universal anchor brackets, 12 mm wide.

- Manufactured using environmentally-friendly recyclable materials.
- Circular 130 litre capacity body with an access hatch that occupies half of the body diameter and can open to 180°, making it easy to empty.
- 120 L basket fitted with a handle to facilitate handling of the litter bin during emptying.
- Possibility of including a bicompartiment option, through a hoop or basket, for the selective collection of different types of waste: paper and cardboard, glass, containers, etc.
- Upon request there is the possibility of customizing the litter bin with an outside ashtray.
- Customisation with a plate on the body, the max. available size being 200 x 200 mm.

EQUIPMENT AND ACCESSORIES

- The Europa 130 litter bin has been designed with a shape and size that make it ideal for use in busy urban areas.
- Manufactured in solid-coloured linear polyethylene and stabilised against the combined effects of UV radiation and water, and also resistant to bad weather, detergents, mould and bacteria.
