LITTER BINS

Milenium 80 L Covered

GENERAL FEATURES

- CONTENUR's Milenium Series litter bins are designed with smooth surfaces to facilitate cleaning. Manufactured in cast aluminium, with linear polyethylene rotomoulding or using injected high-density polyethylene.
- All litter bins are fitted with a triangular lock and key for smooth and easy handling.
- The 80 L and 130 L capacity litter bins have a support base integrated into the body and are fixed to the pavement with six anchor brackets, 12 mm wide, whilst the 50 L litter bin includes a fixing system made of highly-resistant technical plastic.
- A basket able to hold 50, 65 and 120 L, fitted with a handle to facilitate handling of the litter bin during emptying.

EQUIPMENT AND ACCESSORIES

- Body, top, base and upper reinforcing rim made of cast sand-blasted aluminium, painted ronoxide grey.
- All metal parts are made of stainless steel or cast aluminium to prevent corrosion.

- The filling area consists of a fixed top cover joined vertically by two side panels to a lower ring, integral with the body, forming two openings, accessible at 180°, for depositing litter.
- The circular 80 litre body into which the litter is deposited houses the door for emptying.
- 65 l basket has a reinforced ring in the upper part and is fitted with an integral handle to make emptying easier for maintenance staff.
- There is the option of replacing the basket with a refuse sack.
- Anti-vandal support base is integrated into the body and is fixed to the pavement simply and securely by means of six 12mm universal expansion bolts.
- The system can also be used to segregate two separate materials if a two-compartment basket is fitted.
- A cigarette extinguisher integrated into the body of the litter bin to help put out cigarette butts.
- Upon request there is the possibility of customizing the litter bin with an outside ashtray made of zinc plated painted ronoxide grey or stainless steel.
- Customisation using a plate on the body, maximum size: 125 x 125 mm
