TECHNICAL SPECIFICATIONS

SANECAN®

Neptuno

FEATURES

- Manufactured from 2mm thick steel plate, specifically designed with a ribbed finish to prevent fly-posting.
- The lid, containing the glove/bag dispenser, attaches to the rear of the body with a reinforced hinge and to the front by a standard triangular lock which can be opened to facilitate emptying and maintenance tasks.
- The body is the central part of the container; housing a 55 litre capacity waste disposal bag.
- The gloves/bags are black to disguise the contents. They are recyclable, opaque and waterproof and their ergonomic design and size makes them easy to use.
- The base forms the integral lower part of the container. It has a flat 470mm dia x 4 mm plate, fixed to the ground with four drill holes and adjustable threaded anchor bolts.
- All exterior components are cathaphoresis-treated to prevent rusting.
- Robot-applied powdered resin finish, automated baking process.

Model	Depth	Width	Height	Opening area
Olimpia	508 mm	478 mm	1120 mm	240 x 130 mm
Sicilia	320 mm	430 mm	1088 mm	200 x 120 mm
Madrid	285 mm	430 mm	1070 mm	196 x 120 mm
