

REAR-LOADING CONTAINERS – 2 WHEELS

C90

90 L  
Capacity

36 Kg  
Nominal load

200 mm  
Wheels diameter

DIMENSIONS

## REAR-LOADING CONTAINERS – 2 WHEELS

# C90

### FEATURES

- The rear-loading CONTENUR containers are designed with a strong focus on ergonomics and overall aesthetic quality across all components.
- They are manufactured from injection-moulded, solid-colour high-density polyethylene (HDPE), stabilised to resist the combined effects of water and UV radiation.
- The containers are produced using environmentally friendly, fully recyclable materials.
- No heavy metals are used in the pigments.

### STANDARDS

- CE marking with noise level indication in accordance with Directive 2000/14/EC of the European Parliament and of the Council, with a value of 80 dB.

### EQUIPMENT AND ACCESSORIES

- The containers are designed for efficient stacking, optimising logistics and reducing CO<sub>2</sub> emissions during transportation.
- The container can be customised for different waste streams, including paper and cardboard, glass, plastics, and organic waste.
- Equipped with DIN-standard lifting systems.
- The lid incorporates an integrated soundproofing system.
- A built-in recess is incorporated for electronic identification chips.
- The wheels are designed to minimise dirt adhesion and facilitate cleaning.
- The container body and lid can be customised with logos or other graphics using a thermal transfer printing system.
- Body customisation via thermal transfer graphics is available. Maximum size of 280 × 290 mm.
- Lid customisation via thermal transfer graphics is available. Maximum size of 45 × 230 mm.
