REAR-LOADING

FEATURES

- Manufactured from F-1120 steel. Galvanised sheet with oven-baked paint.
- Surface coated with exterior-grade polyester paint and oven-cured.
- Designed to accommodate either one four-wheeled container up to 660 litres or two 240-litre containers
- Removable tray and ramp made of steel sheet.
- Four access openings measuring 250 x 250 mm, reinforced with rubber.
- Integrated base attached to the body and fixed to the floor with four universal 12 mm diameter expansion anchors.
- Orange colour, RAL 2011.
- On request it can be supplied with reflective strips and a 550 mm x 700 mm sticker.
- Soundproof flap installed on the access opening to prevent water ingress.
- Access ramp to facilitate handling tasks.
- Removable tray installed at the base.
- Side door with a maximum opening angle of 180°, equipped with two flat-key metal locks and three hinges.
