Milano Unica

意大利经济发展部

/ Looking ahead thinking globally

Globalisation as a driver for economic growth in Italy is still a hotly debated topic. In a situation characterized by economic policies oriented towards setting restrictions on the Italian national budget, globalisation represents a strategic leverage for a more comprehensive growth-oriented industrial policy managed by the Italian Ministry of Economic Development.

/ Public/private partnership

Within the strategies aimed at promoting the internationalization of Made in Italy, the Italian Ministry of Economic Department promotes a wide programme focused on the Textile-Accessory industry in China to increase the dialogue between Italian mills and the Chinese buyers

/ Milano Unica: a project to believe in

From this new standpoint, then, the Italian Ministry is interested in supporting Milano Unica's project, with the objective of combining five national fabric & textiles trade shows into one. This proved to be a winning operation that also consolidated the possibility of registering great success in international markets, thanks to the industry's ability to exploit the strengths of the system through teamwork, communicating the excellence and the non-price advantages of "Made in Italy" goods.

/ 以全球化的思维向前看

把全球化看作是经济增长的助推器，在意大利就这个观点仍然存在诸多争论。在以紧缩财政预算为国内经济政策核心目标的大背景下，意大利经济发展部制定的，以带动工业企业全面增长为目标的全球化政策具有重要的战略意义。

/ 政府职能部门/私企结成合作伙伴关系

在意大利经济发展部制定的一系列旨在全球市场推广Made in Italy的发展战略中，有很大篇幅的推广活动聚焦在中国推广意大利的纺织面-辅料产品，为意大利生产企业同中国买家创造增加对话交流的机会。

/ 米兰 Unica 展: 值得办下去的展会

在新思路的带动下，意大利经济发展部大力支持米兰Unica办展，并积极推动将国内五大面料和纺织品展会合并成一个统一的展览盛会。事实证明，业内企业通过强势结盟，大力度宣传“Made in Italy”蕴含的价值，确保了这一正确的决策在国际市场上亦收获巨大成功。

Today, just like yesterday, we are aware that our future depends on the success and economic growth of the regions in which we operate. We therefore feel that the support to the projects for development of our Customers is our primal duty in order to actively contribute to their success.

Giving support to worthy Customers means first of all listening and getting to know their needs and their peculiar characteristics so as to develop, case by case, the solutions that answer best to their requirements and that may help them achieve success. For that reason we aim at having, besides the whole offer of **Gruppo Sella**, including its excellence in the systems of payment, in digital solutions and in investments management, above all skilled people operating to support Corporate Businesses and Entrepreneurs following the values and principles of the Group (Trust, Personal Relationship, Quality and Innovation). We believe that the future of the Italian economy and the wealth of people will come about through the development of the high potentialities of Italy as a Business and Made in Italy in particular, which is largely made up by private small and medium-sized businesses. Banca Sella puts itself up as partner in this important challenge.
