

# 2027 SORDEVOLO'S PASSION OF CHRIST

Every 5 years in Sordevolo, in the Elvo Valley, we remind the event that marked the history of humanity: the Passion of Christ. The territory goes on stage: more than 400 residents play the role of actors and give life to an exciting open-air show, in which the Passion of Christ is reconstructed, in a 43,055 square feet amphitheater. Over 30,000 spectators from all over the world flock to witness the performance live.
