

### **Update: 13/01/22**

Following on from the welcome news this morning that restrictions on travel to and from France are being relaxed, Travelski are very pleased to confirm that the Travelski express departures will commence on **Friday 28th January**.

The Travelski Express, direct from London St Pancras to the Alps, remains the safest way to start your ski holiday. All passengers must adhere to current Covid19 vaccination requirements before boarding, with no transport hubs to navigate or cross border checks once on board. Masks must also be worn at all times.

For vaccinated passengers, you will no longer be required to self-isolate on arrival in France although you will need to present a negative anti-gen or PCR test taken no longer than 24 hours before you travel.

### **16/12/21**

Following this morning's announcement from the French Government, effectively stopping all non-essential travel from the UK into France, Travelski are having to cancel all guests arriving from the UK (covering the period 17<sup>th</sup> December to 7<sup>th</sup> January). This also includes the first two rotations of the Travelski Express on 26<sup>th</sup> December and 1<sup>st</sup> January. All clients

booked are being contacted by e-mail and offered a full refund, or a chance to rebook their ski holiday for later in the season.

As there is currently no end date for these restrictions later holidays may also be affected and, in that event, we would then take similar proactive steps for guests booked on these, closer to departure.

Guests can rest assured that the situation is being closely monitored and we will be operating our full range of ski holidays, including the Travelski Express, as soon as restrictions allow us to do so in a safe manner.

Any guests departing during the period 17<sup>th</sup> December to 7<sup>th</sup> January who have not received an e-mail can contact us using the e-mail address [support.clients@travelski.com](mailto:support.clients@travelski.com)
