

## **List of cookies**

A cookie is a small data file (text file) that a website and/or application, when accessed by a user, asks your browser to store on your device in order to remember information about you, such as your language preferences or login details. We set these cookies as internal cookies. We also use third-party cookies, which are cookies from a different domain than the website and/or application you are visiting, for our advertising and marketing efforts. More specifically, we use cookies and other tracking technologies for the following purposes:

### **Strictly necessary cookies**

These cookies are necessary for the operation of the website and/or application and cannot be deactivated in our systems. They are generally set as a response to actions you have taken that constitute a request for services, such as setting your privacy preferences, logging in or filling in forms. You can configure your browser to block or be informed of the existence of these cookies, but certain parts of the website and/or application may be affected. These cookies do not store any personally identifying information.

### **Functionality cookies**

These cookies are used to improve and personalize the functionality of the website and/or application. They may be activated by our teams, or by third parties whose services are used on the pages of our website and/or application. If you do not accept these cookies, some or all of these services may not work properly.

### **Performance cookies**

These cookies enable us to determine the number of visits and sources of traffic, in order to measure and improve the performance of our website and/or application. They also help us to identify the most/least visited pages and to evaluate how visitors navigate the website and/or application. All information collected by these cookies is aggregated and therefore anonymized. If you do not accept these cookies, we will not be informed of your visit to our site.

### **Cookies for targeted advertising**

These cookies may be set within our website and/or application by our advertising partners. They may be used by these companies to profile your interests and offer you relevant advertising on other websites and/or applications. They do not directly store personal data but are based on the unique identification of your browser and Internet device. If you do not authorize these cookies, your advertising will be less targeted.
