

Ref.: 75957

USE

- Designed for the application of ceramic adhesive, mortar and other bonding materials.

CHARACTERISTICS

- SUPERPRO quality
- Exclusive RUBIFLEX ergonomic handle with two textures. A highly ergonomic handle with greater grip.
- The closed handle offers a symmetrical tool, perfect to be used by both right- and left-handed people, while giving us a more centered tool that is easier to control and manipulate.
- Special steel sheet with high wear resistance with protection against corrosion by colorless varnish.
- Perfect flatness of its sheet.
- The connection between blade and handle is made using two stainless steel screws, for greater durability of the tool.
