

Ref.: 65926

USE

- Pliers designed for grinding cuts in ceramic tiles, especially glazed tiles and stoneware.
- To rectify all those cuts that could not be made with the manual cutter, or simply make small cuts that do not require the use of a larger tool.

CHARACTERISTICS

- Its cutting capacity is provided by two pads with very hard tungsten carbide edges.
- Design specially designed so that the tungsten carbide edges never touch each other, and thus the durability of the pliers is much greater.
- Handles with highly ergonomic bi-material coating that provides greater comfort and reduces the user's effort when applying pressure.

TECHNICAL SPECIFICATIONS

- Dimensions: 27 x 11 X 3.5 cm
- Net weight: 425 g

PACKING

- Units per box: 6
- Box dimensions: 28 x 20.3 x 9 cm
- Box weight: 2.95 kg
