

Ref.: 77923

## USE

Notched trowel for the application of ceramic's adhesive.

Ideal for big tiles slab type.

## FUNCTIONAL CHARACTERISTICS

Notched trowel SUPERPRO quality.

SINGULAR & DIFFERENTIAL shape (non-rectangular) to achieve the optimal moistening (close to 100%) of the tile with the adhesive.

Specially made for pieces for which moistening is key (large tiles) and so, it works well with the slab tiles.

Highly durable stainless-steel plate.

Plate's fixation by 6 electro welded points. Irremovable and maximum mechanical resistance.

Reduces adhesive's air blistering.

Bi-material open handle RUBIFLEX. Improves ergonomics.

## THECNICAL SPECS

Trowel's dimensions: 28 x 12 cm

Trowel's net weight: 390 gr.

Teeth measures: 6 mm x 8 mm (small teeth).

12 mm x 7 mm (big teeth).
