## USE

Portable PROFESSIONAL system for INTENSIVE use, specially designed for dry bevelling of large format ceramic tiles mainly.

Allows the realization of mitter bevelling and radial profiles in ceramic tiles, porcelain, and any natural stone material of any size.

## FEATURED CHARACTERISTICS

SUPERPRO quality portable beveller.

Does 45° bevelling up to 20 mm thickness, and no thickness limit in radial bevelling.

Progressive bevelling at different depths for extended life of the bevelling wheels, and to facilitate the bevelling process to the user.

Compatible with wired or wireless mini angle grinders that are easily and safely adaptable, thanks to the M14 axis and the quick release belt.

Sealed high-speed ball bearings, to prevent dust from entering during the bevelling process.

## OTHER FUNCTIONAL CHARACTERISTICS

Polyethylene skates of high wear resistance.

Possibility to easily adapt a vacuum cleaner for dust suction (ZERO-DUST).

Fast and easy bevelling wheels exchange.
