

Ref.: 16984

## USE

For bevelling ceramic tiles, natural stone and artificial or sintered stone.

Exclusive bevelling cup for bevelling accessory RUBI PRO-EDGER.

## FEATURED CHARACTERISTICS

SUPERPRO quality coarse graine bevelling cup.

Recommended for dry use.

Soft bevel finish.

High-precision profiling.

## OTHER FUNCTIONAL CHARACTERISTICS

Diamond grits fixation through vacuum brazed system.

Recommended for use with angle grinders from 9000 to 12000 rpm.

45° tool with 1 – 2 mm edge.

TURBO TWIST grinding cup can be used for grinding before the final finish with the fine grain, as it's grooved design could cause tile's edge chipping.
