

Ref.: 73911

## USE

- Paint spatulas are used by painters, plasterers and bricklayers in general
- Its main use is the application and smoothing out of pastes and putties
- Can also be used to scrape and remove traces of other materials, as wallpaper, carpets, adhesives, etc.

## FEATURED CHARACTERISTICS

- Stainless steel paint spatula SUPERPRO quality with RACK 2" (75 mm.)
- The stainless steel sheet ensure the maximum strength, a good flexibility and resistance to oxidation.
- The sheet is inserted into the RUBIFLEX bi-material handle and is fixed by a rivet, ensuring the unitary nature of the tool.
- The RUBIFLEX bi-material handle with ergonomic design provides greater grip and comfort while using the paint spatula.

## OTHER FUNCTIONAL CHARACTERISTICS

- RUBI paint spatulas with RUBIFLEX bi-material handles are available in 6 different sizes, ranging from the 25 mm wide spatula, ideal for small jobs and hard to access areas, to 150 mm spatulas for working on larger surfaces.
