

Ref.: 25949

USE

- Ideal for cleaning all types of surfaces, specially recommended for ceramic tile fitting jobs (grouting and work delivery).

FEATURED CHARACTERISTICS

- Lightweight and resistant washboy equipped with 2 grooved high resistance squeeze rollers to facilitate the draining, thus achieving a greater discharge of water
- Reinforced roller brackets to make them more pressure-resistant during repeated wringing.
- Equipped with 2 wheels, built into the base of the washboy, made of polypropylene (PP), to make handling easier when the washboy is filled with water on smooth surfaces.
- INSTALLATION PHASE: # 5

OTHER CHARACTERISTICS

- Made of injected polypropylene (PP)
- The polypropylene (PP) draining grid features reinforcement points to give it a greater bending resistance
- Double galvanized steel handle with plastic grips that help to transport the filled washboy with a better balance.
- Easy cleaning; the draining grid can be removed and the washboy itself features drains in two of its corners.
- Graduated double scale (litres and gallons) on the inside of the washboy.

TECHNICAL SPECIFICATIONS

- Washboy and rollers material: Injected PP
- Handles material: Galvanized steel and plastic
- Draining grid material: HIPS
- Net weight: 1,56 Kg
- Dimensions: 560 x 290 x 310 mm
- Maximum capacity: 24 l
- Useful capacity (covering the grid): 17 l

PACKAGING

- Individual full color cardboard
- Units per pallet: 18
- Pallet dimensions: 120 x 100 x 108 cm
