

USE

Designed for the extra-long-life drilling of porcelain, ceramic tile, natural stone like granite, marble, as well as sintered stone.

FEATURED CHARACTERISTICS

PREMIUM quality drill bits for dry drilling with angle grinder.

Extra Long life. 3X! (Triple life of the competitors)! Due to the composition of the diamond section, concentration of diamond per mm², and resistant brazing of diamond with high quality material, helps give a better life and a stable velocity during drilling.

Stable number of holes, with minimum deviation.

INSTALLATION PHASE: # 2

OTHER CHARACTERISTICS

Vacuum brazed type drill bits that provides a fast dry drilling with very good quality.

Integrated wax only in the smallest diameters (6 – 12 mm) to help cooling and lubrication while drilling.

Side openings for better cooling due greater air circulation in biggest diameters (20 – 85 mm) as well as to help the debris get out easily and give the bit a longer life.

Air cooled through the own rotation but also recommended to make small orbital movements with the tool to help cooling.

To have a good productivity and longer life in drilling materials of thickness 20 mm or more, it's always recommended to do 10 mm first, clean the bit and then continue till the end.

Available individually and in 4 different kits:

- KIT Mini (51939): with diameters 6, 8, 10 and 12 mm
- KIT 4 drill bits (51931): with diameters 28, 35, 43 y 68 mm and centering accessory.
- KIT 5 drill bits (51937): with diameters 28, 35, 43, 50 y 68 mm and centering accessory.
- KIT 6 drill bits (51929): with diameters 6, 8, 35, 20, 50 y 68 mm and centering accessory.

TECHNICAL SPECIFICATIONS

Connection to angle grinder through M14 thread

For dry drilling.

Recommended working speed: 12.000 rpm

Maximum working speed: 14.000 rpm

Maximum thickness of cut:

- 30 mm (bits Ø 6 - 35 mm)
- 38 mm (bits Ø 43 – 85 mm)

Available diameters:

- Ø 6 mm (ref. 06900)
- Ø 7 mm (ref. 06915)
- Ø 8 mm (ref. 06918)
- Ø 10 mm (ref. 06919)
- Ø 12 mm (ref. 06929)
- Ø 20 mm (ref. 06971)
- Ø 28 mm (ref. 06972)
- Ø 35 mm (ref. 06973)
- Ø 43 mm (ref. 06974)
- Ø 50 mm (ref. 06975)
- Ø 60 mm (ref. 06976)
- Ø 65 mm (ref. 06977)
- Ø 68 mm (ref. 06978)
- Ø 75 mm (ref. 06979)
- Ø 85 mm (ref. 06980)
