

Ref.: 16900

USE

RUBI® SLIM CUTTER PLUS is a manual cutting system for large-format porcelain tiles with thicknesses between 3 and 10 mm.

From thicknesses of 10 mm, and up to 20 mm, you must use the SLAB BREAKER PLUS (ref. 18917).

FUNCTIONAL FEATURES

Premium category.

112 cm long extruded aluminum guides, interconnectable.

Cutting capacity of 320 cm (expandable as needed by adding extra guides Ref.16908).

6 suction cups integrated in the natural rubber guides, suitable for rough surfaces to obtain a better fixation of the guides to the piece. They do not leave marks on the piece.

Separation system by means of adjustable pliers with a soft-grip handle, which facilitates and ensures progressive separation of the piece, reducing the risk of breakage. 2-in-1 pliers and separator.

Recommended thicknesses between 3 and 10 mm.

Tool holder and marking carriage made of aluminum with plastic wheels with lever mechanism.

RUBI EXTREME Ø 22mm scoring wheel, made of Tungsten Carbide with Titanium Carbide treatment and bearings to offer greater performance and scoring quality.

Transport bag 1180 mm long and 220 mm wide, with handles and pockets for accessories. Black and red finish with RUBI serigraphy.

Each set contains: 3 112 cm guides, 1 marking carriage with a Ø22 mm scoring wheel, 1 pliers, 6 suction cups and 1 Allen key.
