

Ref.: 10913

USE

- The new TRILLER ENERGY from RUBI is a WIRELESS, BATTERY-powered, lightweight, and compact tile vibrator, specially designed to prevent the generation of encapsulated air bubbles between the adhesive and the back of the ceramic tile.

FUNCTIONAL CHARACTERISTICS

- PREMIUM Category.
- It is recommended for installation work on porcelain sheets. Above all, in formats larger than 300 cm x 100 cm.
- It can also be used for the installation and correct fixing of uncoupling or waterproofing sheets.
- The low weight and the wireless system facilitate its use in vertical supports and work at height.
- Includes a vibration reduction system that prevents the return to the user. Thus, allowing longer use, less effort and greater comfort.
- The contact base with the ceramic tile does not leave marks and is easily replaceable.
- It has a speed regulator to adapt the vibration to the material and support where it works together. Includes power interruption security system.
- Powered by 12V 4Ah Li-HD battery (compatible with 12V 4Ah batteries from the Metabo CAS platform)
- Variants:
 - 10913: RUBI TRILLER ENERGY
 - 10972: RUBI TRILLER ENERGY UK
 - 10971: RUBI TRILLER ENERGY EU

TECHNICAL SPECIFICATIONS

- Net weight: 5.5 kg.
- Product dimensions: 24.2 x 29.2 x 17.9.
- Compatible with the rest of the products in the range of SLAB SYSTEM tools for cutting, handling and installation of porcelain sheets.

BATTERY:

- Battery type: LI-HD 12V 4Ah **Ref. 85403.**
- Battery level indicator: By means of a button with 4 colored leds.
- Battery IP: 20
- Battery weight: 0.325 Kg
- Net weight with battery: 5.8 kg.

PACKAGING

- Unitary cardboard box with 1-ink flexography.
- Unit gross weight: X
- Sales unit: 1 unit.
