

Ref.: 51949

USE

- Guide kit for use with the TC-125 G2 electric cutter.

CHARACTERISTICS

- Extruded aluminium guides that can be connected to each other.
- G2 guide system, which stands out for:
 - o Trapezoidal shaped rail: better attachment of the cutter to the guide. Prevents the cutter from lifting off the guide when mitering.
 - o Reinforced guides to reduce deformation when sliding the cutter.
 - o Minimal possibility of cutting deviation thanks to the improved connection between guides by means of 2 connecting pins and a T-shaped connector.
 - o Improved grip on the tile thanks to its better lower rubbers.
- The kit consists of:
 - o 2 guides of 155 cm
 - o 1 x 65 cm guide
 - o 2 suction cups
 - o 2 clamps
 - o Allen wrench for attaching guides and suction cups
 - o Carrying bag.

TECHNICAL SPECIFICATIONS

- Maximum cutting length of the kit: 360 cm. This length can be extended with additional guides.
- Weight: 9.5 kg

PACKAGING

- Selling unit: 1 unit.
- Package dimensions: 164x25.5x14.4 cm
- Gross weight: 13,42 kg
- Available on a pallet of 24 units.
- Pallet dimensions: 175x108x111,6 cm
- Pallet weight: 350 kg.
