

Ref.: 50937

## USE

- For wet drilling of all types of ceramic covering materials such as tiles, glazed stoneware, porcelain stoneware, but also glass and natural stone.
- EASYGRES drill bit kits are the ideal solution for those users who need to drill holes of different diameters in all types of ceramic tiles.

## CHARACTERISTICS

- PRO quality
- Steel body and band with electroplated diamond particles.
- For use with an electric drill (never in hammer mode).
- Side opening to improve cooling and evacuation of remains of the perforated material.
- Designed for wet cutting only. DO NOT use dry.
- Working speed: 400 - 1,000 rpm
- Maximum working thickness: 25 mm
- Kit contents: 7 EASYGRES drill bits (Ø 20, 28, 35, 43, 50, 68 and 75 mm), a MULTIDRILL centering guide, a tank and hose set and a practical carrying case.
