

Ref.: 28906

USE

Transport and handling system for large-format SLIM-thick porcelain slabs.

FUNCTIONAL FEATURES

Set of 2 retractable profiles (from 170 to 320 cm) made of reinforced aluminum.

Recommended thicknesses up to 6 mm, max. 80 kg load.

Usage formats – min. 170 cm – max. 320 cm.

Adjustable width.

The recommended optimal gripping distance is 700 mm (distance between handles).

The Soft-grip handles can rotate to allow the user to use the rubber stops to hold the conveyor during operation.

Multiple suction cup position adjustments.

Each guide is suitable for working individually.

FAST FIX system.

High-load capacity vacuum suction cups with a diameter of 160 mm. They provide safety, reliability and stability in transport by placing the profiles closer to the piece.

The NEW SLIM EASY TRANS system has a set of perpendicular crossbars (ref. 28907) for greater stability, which also increases the maximum load to 120 kg.

TECHNICAL SPECIFICATIONS

Maximum load capacity: 80 kg.

Net weight: 24 kg.

Dimensions: 3620 x 300 x 136 mm.
