

Ref. 27931 RCH-36"

Ref. 27932 RCH-48"

USE

- Professional single-guide ceramic tile cutter with multi-point separator and fixed square.
- Perfect for FREQUENT cutting of porcelain stoneware, and INTENSIVE cutting of tiles and glazed stoneware.

MAIN FEATURES

- SUPERPRO quality single-guide manual cutter.
- The machine is made entirely of aluminum to make it ultra-light and improve its transportability.
- Good visibility: The T-shaped guide allows the user to see the wheel from above at a minimum angle.
- Increased stability: Double side stop for large format tiles.
- Straightness adjustment system from the guide supports.

OTHER FEATURES

- Multi-point separator made of die-cast aluminum, with MAGNET breaking mechanism for FASTER use.
- Closed profile extruded aluminum guide with stainless steel rod. Reduces both lateral and vertical bending, improving cutting performance.
- Aluminum guide supports centered around base and guide.
- Aluminum tool holder incorporating 4 double ball bearings capable of withstanding high pressures.
- Soft grip handle for greater ERGONOMICS and COMFORT.
- Fixed square with aluminum side stops for repetitive cuts and narrow strips with reinforced plastic fixed square for 90° and 45° cuts.
- Includes:

Wheels and carrying handle, except for the 850 mm length.

Reinforced fabric carrying bag for added protection and durability.

EXTREME scoring wheel of \varnothing 22 mm.

TECHNICAL SPECIFICATIONS

- Maximum separation power: 950 Kg.
- Cutting length: Ref. 27931 RCH-36" – 36"
Ref. 27932 RCH-48" – 48"
- Maximum diagonal ceramic size:
Ref. 27931 RCH-36" – 27"X27"
Ref. 27932 RCH-48" – 34"X34"
- Cutting thickness: 1/4" – 11/16"
- Net weight: Ref. 27931 RCH-36" – 15,8 KG
Ref. 27932 RCH-48" – 19,1 KG
- Dimensions: Ref. 27931 RCH-36" – 118X31X24
Ref. 27932 RCH-48" – 162X31X24

PACKAGING

- Unitary cardboard box type B1 with RUBI logo.
- Sales unit: 1

NORMATIVE

RCH PATENTS

- Bearing adjustment mechanism in the tool holder.
- T-shaped guide geometry and its functionalities in conjunction with the tool holder.
- Industrial design protection for the overall cutter design.
